4. Public Comment: Adam Jager of HBMWD, gave an update on the happenings with the clean-up of the lease lots. He spoke about the different contractors that are providing services to the Ruth Lake area. This includes loggers, PG&E, the crews that will be cleaning up the hazard waste, debris, etc. The tree cutting by PG&E has begun, which are the P2 trees that have been marked. This includes the removal of trees and after they are cut, Morris Logging will be removing them or PG&E will chip them, which is done all on site. There are two different logging companies that are contracted out with PG&E. The Unlimited Loggers are starting around Barlow Campground and Atlas is starting near the Ruth Rec Campground. Debris removal was to start in January but then moved to February, and now it looks like March, weather permitting. The debris removal crew plans to start the clean-up process soon but the recent problem they have are the closure times on Highway 36 going east. This causes a problem with transporting the debris to the dump station in the Anderson area. When the crews are completed with all of the clean-up, the tree removal company Morris Logging hired by HBMWD are to remove all the burned and dead trees located on the lease holders' sites and the buffer zone. Also, HBMWD new LTO is going to be Morris Logging.
5. Supervisor's Report: Dan Frasier spoke about Phase 1, which is the clean-up of the hazardous materials on the damaged lease lots. During Phase 1 of the cleaning, they had trucks being used to clear car batteries, fuel etc. At this time nothing is really happening. In March, weather permitting, they will be starting on Phase 2 of the clean-up process. Dan provided his new contact number, which is 707-499-6179.
6. Correspondences: Lease holders' letter was sent out by Dave Saunderson to all lease holders. Dave is wanting to reestablish the Ruth Lake Leaseholders Association after seven years of not being together.

7. Updates of District projects:
 - a. Launching gates at all 3 locations Ruth Rec, Old Ruth and the Marina. Out of the 5 gates, 4 needs to be repaired. Owsley Electric came out to give us a quote on all 4 gates that need repair. Now we are just waiting for the quote.
